THE COLUMBIA.

Never in the annals of naval warfare has such a triumph been produced as the U. S. Cruiser Columbia.

Faster than ever sped warship or merchant vessel, she steamed over the coast from Cape Ann to Cape Porpoise on her trial trip with the United States board of inspectors on board. Her average speed for the 88 knots was 22.81 knots an hour. But she steamed 7 1/2 knots of the run at a rate that averaged 25.03 knots or a little over 30 miles. It was a magnificent display of speed, and by her little four hours' spin she won for her builders (William Cramp & Son) the neat bonus of \$350,500.

When the speed was at the highest point the whole form of the Columbia vibrated with the fearful velocity of the engines. The mighty shafts revolved 2 1/2 times every second and the three huge screws churned the water into great waves that rose high about the quarter galley.

Never ship was built that equaled the tremendous velocity which the Columbia attained. It was not an easy task to stand on the deck and face the gale which resulted from the onward sweeping of the mighty ship.

Imagine, if you can, a huge mass of steel, iron and wood 400 feet long, cleaving the water at a velocity of over 30 miles per hour, driven onward by 21,000 horse power.

The Columbia was built entirely of American material and is the fastest war ship afloat.

Six such vessels as this could destroy the commerce of any nation, and this engine of destruction is certainly the King of the Seas.

A Brain-Racking Situation.

The Hawaiian situation as developed by American newspapers, statesmen and lawyers, basing their judgment on the Gresham letter and the subsequent dignified silence of the Administration, stands as follows:

Has President Cleveland determined to oust the Provisional Government?

He has. He has not. Has President Cleveland determined to restore Queen Liliuokalani, by force if need be?

He has. He has not. Presuming that President Cleveland has so determined, is he acting within his Constitutional powers?

Yes. No. Or in accordance with the principles of international law.

Yes. No. Would the rescuing of Liliuokalani by President Cleveland be an act of law?

It would. It would not. Ought President Cleveland to be impeached if he follows Gresham's suggestions?

Yes. No. In the meantime Your Uncle Grover is indulging in the pleasurable occupation of sawing wood.—Post.

Victory for a Paper.

Friday, in Judge Slack's Court in San Francisco, the jury in the case of Martin Kelly, the dethroned boss, against the Examiner for \$75,000 for defamation of character, returned a verdict of not guilty after being out seven minutes.

The Examiner accused Kelly of stealing a fire engine belonging to the city from the corporation yard. At the trial many witnesses swore that Kelly's reputation was bad.

The Bee, too, during the past few months, has been the defendant in several libel suits, in all of which it has been victorious.

People who bring suits against reputable journals—journals which are willing to make a reparation in their columns for erroneous statements—are in judgment, and not unfrequently it occurs, as in the Kelly case, that their character is proven bad in Court.—Sac. Bee.
